

## Tracker II

Optional headset available

With its inductive signal application, the Tracker II can be used on active or dead systems. Now you can trace the path and determine the depth of wires and metallic pipes without having to deactivate the systems.

- High frequency transmitter provides range up to 4000 feet (1219 m) and depths to 7 feet (2 m).
- The transmitter offers three methods of connection: direct, inductive coupler, or inductive antenna.
- Inductive coupler clamps around the wire or pipe for use on active lines or where isolating the line is not an option.
- Inductive antenna is built into the case housing and allows the transmitter to be placed on the ground over the wire path to radiate a signal down onto the conductor.
- 32" (813 mm) lightweight receiver provides both audible and visual indications of signal strength for accurate identification.
- Transmitter output and receiver sensitivity are both fully adjustable for maximum accuracy.
- Includes transmitter assembly, receiver assembly, inductive coupler (clamp), inductive antenna (built-in), two 8 foot (2.4 m) test leads with heavy-duty alligator clips, and a durable polyethylene case.
- Optional headset is available for use in high traffic areas or other noisy environments.
- 1-year warranty.
- Battery-operated (8- AA and 1- 9V included).

Tracker II	M0584/00
Optional Headset	M0599/00

## Wire Finder/Mini Locator

The 508S Wire Finder is used to trace energized or degenerated wires in walls and drop ceilings. It provides reliable results on buried cables to depths of 3 feet and lengths up to 1000 feet. The unit can even be used to determine the approximate depth of the wire before you dig.

- Compact design.
- Easy to understand operations.
- Fully adjustable transmitter and receiver for accurate locating.
- Quick change test leads for use in any industry, even international power outlets.
- Voltage protection to allow use on live AC circuits.
- Automatic shut-off to prevent accidental battery discharge.
- Both the transmitter and receiver are housed in a durable, molded carrying case with a quick reference operation guide on the inside of the lid.
- 1-year warranty.
- Battery-operated (2- 9V included).
