

The Original D'versiBIT® System

A new twist to an old problem.

These flexible steel drill bits are the right tools for installing wire or cable inside existing walls.

It bends to meet your needs!

Fishing wire or cable through existing walls used to be frustrating and time-consuming, but the D'versiBIT® has made it as simple as bowing the spring steel shaft in the direction you want to drill and turning on the power. Proven in the field to deliver accurate and professional results in many applications. Bits range from 1/4" to 1" (6.4 to 25.4mm) in diameter and in shaft length from 18" to 72" (45.72 to 1828.8mm).

The D'versiBIT® System makes it possible to easily accomplish even complex installations.

Types of D'versiBIT®s

Type A Auger

Wood-type auger bit with screw point for soft woods and thin sections.

Type B Combination with Screw Point

Combination screw point for easy starting and pulling through wood.

Type C Combination

Combination bit for wood.
